IDENTIFY THE PROBLEM YOU WANT TO ADDRESS

Not everyone has the capacity or time to visit and browse a library to find the books that they seek. Not every creator/publisher can showcase their works in a library for the reason of limited space. The literature they require is not always available in libraries. In addition, most libraries only received a restricted number of books and works.

- Traditional libraries may have limited operating hours, making it difficult for community members to access library resources at their convenience.
- In the recent libraries face space constraints, resulting in limited shelf space for books and other materials.

DETERMINE WHAT YOUR PROGRAM NEEDS TO DO IN ORDER TO ADDRESS THE PROBLEM

AoK tends to make it easy for students to access Books, artworks, projects and etc. Anytime and anywhere! Students can browse and find literature that can help them especially academically for free! Given that COVID-19 is still a threat, an online Community-Library like AoK would be a big help! Not just for students, but also for creators who want to showcase their works!
